The University has established a parking program for the End of School Splash.

- There are NO parking cards that will be sold for this meet.
- From Friday, May 16th thru Sunday, May 18th, the exit gates will be up in the garages and no parking fees will be collected. On Friday, the entrance gates may be down in the morning hours, but the exit gates will still be up. Although the attendees, officials and participants will not be charged for parking on these days, they MUST BE AWARE that traffic in and around the garages will be EXTREMELY heavy, and that entry into and exit out of them will have VERY LONG delays. Coupled with the construction going on around Red River, MLK and Trinity, this years' Commencement traffic issues look to be even more challenging than normal.

Please see the map above.

*Please note: This is UT Commencement weekend! Traffic will be heavy.

*Please be aware of all posted signs including the “at all times” designation. *Lot 70/99 require a University Permit and if you park there, expect a minimum citation of $35 for parking without the proper permit.
